

SPRINT – 2

US1- Build one trip flight option for flight booking.

Acceptance criteria----

User should be able to click on Flight menu and then its color should be changed to blue.

Flights option would be first option and after that hotels and so-on.

Flights should contain 3 options-

1.OneWay

2.RoundTrip

3.Multicity

We need to develop for One way trip.

In One way option user should fill below parameters to book a flight.

1.From-Here any city can be selected by user if they wanted to fly from home location.Its a autofill dropdown and here after giving any letters for searching city,it should be suggested to user.

2.To--Here any city can be selected by user if they wanted to fly to destination location.Its a autofill dropdown and here after giving any letters for searching city,it should be suggested to user.

3.Departure date-This should be enable if click on departure date and user can select only dates from today and future.Other dates would be disable.

4.Travellers and class section.->Passengers-

ADULTS (12y +)---maximum 9 should be selected and default 1 should be selected.

CHILDREN (2y - 12y)--maximum 6 should be selected and 0 default should be selected.

INFANTS (below 2y)--maximum 6 should be selected and 0 default should be selected.

5.CHOOSE TRAVEL CLASS option need to be available on Travellers and class section.

These options should be like -

a. EC (By default it's selected)

b. PE

c. Business

After filling all the valid details as per the parameters user should be able to get the flights (if available) after click on search button.

Screenshot/design documents are attached.

NOTE: TO and FROM need not be same and if it's same then show msg like "From & To airports cannot be the same"

Design Layout-

The screenshot displays a flight booking interface with a top navigation bar containing icons for Flights, Hotels, Homestays, Holiday Packages, Trains, Buses, Cabs, Forex, Charter Flights, and Activities. Below this, there are tabs for ONEWAY, ROUND TRIP, and MULTI CITY. The main search area includes fields for FROM, TO, DEPARTURE, RETURN, and TRAVELLERS & CLASS. The 'FROM' field is currently open, showing a list of recent searches: Pune, India (PNQ), Guwahati, India (GAU), New Delhi, India (DEL), Bagdogra, India (IXB), and Mumbai, India (BOM). The 'TO' field is set to New Delhi (DEL). The 'DEPARTURE' field is set to 18 Oct'22. The 'RETURN' field is empty. The 'TRAVELLERS & CLASS' field is set to 1 Traveller, Economy/Premium Economy. A large blue 'SEARCH' button is prominently displayed. Below the search button, there are links for 'Explore More', 'Money Credit and More', 'Explore International Flights', 'Nearby Getaways', and 'Gift Cards'.
